EDUCATION

Morgan State University

Bachelor of Science in Information Science and Systems

Expected May 2028

GPA: 3.9

Awards/Honors: 1st Place, PROPEL Tech Innovation Challenge - \$35,000 prize (2026) | Martin D. Jenkins Full-Ride Scholarship Recipient (2024 - 2028) | 1st Place, Inaugural HBCU Brain Drone Race - \$1,000 (2025) | 2nd Place, HBCU Career Development Marketplace Oratorical Competition (2025) | Boeing Scholar (2026) | JPMorgan Chase/SYE Scholarship for Student Leaders - \$2,500 (2025) | Student Affairs Coordinator, Investment Club | Board Member, School of Business Dean Student Advisor Board Council

TECHNICAL SKILLS

Technical: Python, C#, Prompt/feature Engineering, OpenAI APIs, Streamlit, Pandas, data cleaning, Visual Studio Code, GitHub, Copilot, Unity Hub, Microsoft suite, Jira, Confluence, Agentic AI, Model Context Protocol (MCP), Azure DevOps, Systems Integration

WORK EXPERIENCE

MARKEL Insurance Company | Business Systems Analyst Intern | Richmond, VA

June 2026 - August 2026

- Engineered an AI technical release documentation system integrating Azure DevOps, Jira MCP, Claude Code, and Streamlit to retrieve, validate, and correlate implementation evidence, generating traceable release summaries.
- Built an Agentic AI workflow within Jira to automate project management tasks, applying prompt engineering, AI agent design, and workflow automation while collaborating across a team and presenting the solution to senior leadership.

Human-AI eXperience (HaX) Lab | Undergraduate Researcher | Baltimore, MD

November 2025 - Present

- Co-developed SocialSense AI with a 4-person team, driving product strategy, user research, and API integration; earned 1st Place among 1,100+ students and a \$35,000 prize.
- Led a 4 person team in developing S.A.G.E., an AI-powered SBIRT system integrating AUDIT and DAST screenings with conversational AI to support brief interventions.
- Engineered VerseMate, a conversational AI application connecting users' real-life situations and emotions with relevant biblical scripture through personalized interactions.

CEAMLS AI Research Institute | AI & Machine Learning Research Intern | Baltimore, MD

May 2025 - August 2025

- Developed supervised ML models (Random Forest, Gradient Boosting, LSTM) on large real-world datasets
- Performed data preprocessing, feature engineering, and time series analysis to improve model accuracy
- Implemented reproducible ML pipelines using Git-based workflows and automated experimentation

PROJECTS

Social Sense AI - PROPEL Tech Innovation Challenge | 1st Place Team of 4 | Dallas, TX

- Placed 1st among 1,100+ student competitors in the PROPEL Tech National Innovation Challenge, building a privacy-first mobile app designed to help individuals with social anxiety develop real-world social confidence
- Built a full-stack Apple ecosystem app, using Unity Hub & generative AI to simulate a Vision Pro-powered social confidence training experience. Collaborating across a team of four to own the product vision, design the user experience, and deliver a compelling pitch presentation to a panel of judges

PM Everywhere - VISTA Agentic AI Hackathon x InternXL | Scottsdale, AZ

- Developed "PM Everywhere," an agentic AI project-management layer that interprets natural-language requests and executes cross-platform actions across Smartsheet, Google Sheets, and Jira, automating task updates, ownership assignments, and project timelines.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Leadership Institute X TMCF | TMCF Scholar | DC, MD

September 2026

- Selected as 1 of 500 scholars from 3000+ applicants, advancing to 1 out of 30 student leaders and 1 out of 10 VIP reception honorees.

Boeing Immersion Program x TMCF | TMCF Scholar | St. Louis, MO

June 2026

- 1 of 50 selected for Boeing's competitive TMCF Immersion Program, gaining firsthand exposure to aerospace innovation through executive engagement, advanced flight simulation, and experiential learning.

Association of Information Technology Society | Vice President

May 2026 – Present

- Lead development and execution of technology-focused initiatives spanning AI, information systems, and emerging technologies, aligning programming with students' technical skill development and career objectives.

UNCF Stem Innovation Conference | UNCF Scholar | San Francisco, CA

March 2026

- 1 of 50 chosen as a UNCF Scholar for a competitive STEM innovation program, developing an AI-powered product prototype with NotebookLM and Lovable and earning an AI Session Completion Certificate from SJECCD.

Google Career Launchpad Program (Google Cloud x TMCF) | Cloud Computing and Generative AI

January 2026 - June 2026

- Pursuing hands-on training in cloud platforms and generative AI, focusing on how AI tools support scalable workflows and user experiences

Management Leadership for Tomorrow | Career Preparation Fellow | Dallas, TX

October 2025 – Present

- Accepted into a selective 18-month professional development program that accelerates the career growth of emerging leaders through structured coaching, mentorship, and targeted skill-building

Project Management Organization | President

May 2025 – Present

- Founded and led Morgan State's first Project Management Organization from the ground up, building its mission, structure, and E-Board while directing workshops, networking events, and campus initiatives in its inaugural year.
